

Hello,

Thank you for visiting our home. It has been our home since 2000; we fell in love with the backyard and all the hosta's, perennials and woods. During the Spring, Summer and Fall you cannot see the neighbors and enjoy so much privacy and quiet breezes on the oversized deck or swing. We had a hammock between the two trees closest to the deck.

We were not in love with the kitchen when we bought the home; so we gutted it down to the studs and totally renovated it. We love our 8 ft island and it is used as a buffet whenever we entertain. The open floor plan has served us well; especially the cut out in the "office" so the cook could still talk to the one working on the computer. ☺

We wanted a rustic look to the fireplace so we also changed that to the stone and have enjoyed many fires. We love the light that comes from the transom windows that also allow for a variety of furniture placement scenario's.

The other major renovation we did was the master bath. We put in granite, a new soaker tub w/jets and the shower & also heated floors. That was the best money we spent! The floors & shower are travertine.

We have also done a few maintenance items, roof in 2008; HVAC added in 2006 and 2008; and windows in 2013. We also love the storage in this home.

I was a single mom when I moved in with daughters 11 and 13. We moved here to be close to their great friends. The Moorings has so much to offer with a swimming pool, tennis courts, 4th of July parties and get togethers. You can be as involved or not involved as you want here.

If you walk a lot; you will likely find a few other neighbors out strolling.

Our kids have grown and gone and we are moving to Florida to enjoy a little more sunshine than Indiana offers. But our hearts break a little bit because the time we have spent at 10209 Leeward have been happy blessed times for us.

Sincerely....Tim and Cindy
